COURSE DETAILS	MENTOR PROFILE
<p>What is CMMI? Is it some rocket science? Is it something that you imagine to be paper work? No, let's break this myth. Learn with us the benefits of CMMI in a productive way. CUNIX believes and practices learning in a different manner – process improvement with soft humour.</p> <p>This three-day course introduces CMMI- DEV fundamental concepts to the select audience in simple lucid flow. CMMI helps organizations improve their ability to develop and maintain quality products and services and devise systems that propel the performance up the value chain. CMMI practices are an integration of best practices from proven discipline-specific process improvement models. CMMI comes as the new possibility with improved processes for better organization management in support of Business objectives.</p> <p><b>COURSE OUTLINE</b></p> <p>Module 1: Introduction to CMMI for Development Version 1.3</p> <p>Module 2: Process Improvement Concepts and CMMI</p> <p>Module 3: Overview of CMMI Model Components</p> <p>Module 4: Model Representations and Generic Goals and Practices</p> <p>Module 5: Product Development 1 (REQM, RD)</p> <p>Module 6: Managing the Project (PP, PMC, RSKM, SAM)</p> <p>Module 7: Project and Organizational Support (CM, PPQA, MAA, DAR)</p> <p>Module 8: Product Development 2 (TS, PI, VER, VAL)</p> <p>Module 9: Improvement Infrastructure (OPF, OPD, IPM, OT)</p> <p>Module 10: High Maturity (OPP, QPM, CAR, OPM)</p> <p>Module 11: Tying It All Together</p> <p>Module 12: Summary</p>	 <p><b>Hitesh Sanghavi</b> <b>Managing Director – CUNIX (CMMI Institute Partner for CMMI – SCAMPI(SM)), is a CMMI Institute authorized SCAMPI Lead appraiser, Lead Instructor</b> with a rich experience of 19 years and 3800 man days in Software Process Consulting, Software measurements, High maturity practices using 6 Sigma/CMMI/Competency models and Training.
